DRAINAGE COMPLAINTS

DATE REC'D	NAME OF COMPLAINANT	PHONE NUMBER	ADDRESS OF DRAINAGE ISSUE	DRAINAGE COMPLAINT DETAILS	NEW/OLD	ACTION TAKEN	DATE OF ACTION	ACTION BY	RESPONSIBILITY			NOTES	DATE OF COMPLETION
									INDY	CEG	MH		
3-Mar-21	Meridian Hills / Willie Hall	317-780-1555	7499 Illinois Street (SE cnr of 75th and Illinois)	Standing water on east side of Illinois south of 75th Street	New	WH reported issue to CEG and DPW. Follow up conversation with Dustin Thurston with DPW.	3-Mar-21	WFH	X	X		SR# 108259950. Photos of standing water sent to DPW and CEG, and followed up with a phone reporting the issue. DPW indicated that complaints for this issue date back to 2006 and 2009. CEG is being directed to investigate the issue. WH has requested an update from DPW on the investigation on 5/7/2021. CRE to do some additional investigation on 10/11/2021 to determine alternative options. 11/17/2021 - sent follow up information to Walter to discuss potential options. 5/2/2022 - met with adjacent property owners and sent two (2) proposed options for DPW / CEG to consider. 5/13/2022 - sent follow up e-mail to DPW to check in on status of decision. Met with DPW, and they are considering options on how they will proceed.	
2-Jul-21	Greg Jacoby		Park Ave. - South of 75th Street	Erosion behind curb at existing inlet	New	LAS reporting issue to CEG and DPW to review	7/9/2021 3/31/2022 5/02/2022	LAS	X	X		Issue reported to CEG and DPW. No follow up from CEG yet. CRE to evaluate if anything has been done, and if not, will reach back out to CEG. 3/31/2022 LAS sent to CEG/DPW again and response was SR# 108374719 - referred the culvert asset to CW for evaluation and repairs. GIS also shows an inlet and 1 pipe culvert pipe needs to be assested. Action of placing erosion control blanket did not work as it appears erosion is caused by a below surface issue like a pipe or structure hole pulling in the material. Reported again on May 2nd by Greg Jacoby. See 4/1/2022 email. LAS sent back to DPW/CEG to inquire about the EC measure that failed see 5/5/22 email to Warren Brown. Will continue to monitor situation to see if additional coordination is necessary.	
9-Nov-21	Eric Roberts	317-771-2434	7735 N. Pennsylvania St.	Drainage Issues	New	WFH has discussed with homeowner and will be meeting with resident on-site.	18-Nov-21	WFH				WFH met with homeowner on 3/14/2022 to look at issue. Will request DPW to consider extending their previous roadside ditch project. However, work on private property will still be required to fix majority of issue, and this was discussed with the homeowner.	
9-Sep-22	Colleen Fields		Morningside Drive - north of 75th Street	Drainage and Erosion Issues along Morningside Drive	Old	LAS and WFH have discussed with Colleen and will be discussing with Town at Sept. meeting.	9/9/2022 10/4/2022	LAS/WFH	X	X		Recommendation is for WFH to issue to DPW to consider a drainage improvements project in this location. 10/7/2022 Update - WH sent request to City of Indianapolis to inspect and review the current drainage conditions, and install drainage infrastructure to convey the runoff from the west. 11/4/2022 Update - met with Indianapolis DPW (Shannon Killion and Anna Belovic) on site to discuss drainage issues. DPW to have survey and additional investigation completed, and then will discuss potential improvements further. 1/7/2023 Update - no response / feedback from DPW yet.	

ARCHIVED DRAINAGE COMPLAINTS

DATE REC'D	NAME OF COMPLAINANT	PHONE NUMBER	ADDRESS OF DRAINAGE ISSUE	DRAINAGE COMPLAINT DETAILS	ACTION TAKEN	NOTES	DATE OF COMPLETION
24-Oct-16	Anne Jay		7435 Central Avenue	Drainage issues on Central Avenue south of 75th Street	Survey drawings and professional recommendations provided to residents. At Nov. 14, 2016 Council mtg, it was indicated to the residents that this is not MH's responsibility and no further action will be completed.	CLOSED.	14-Nov-16
	Joe Finneran	317-251-8433	7650 N. Washington Blvd.	Drainage issues experienced in his rear yard which may possibly be from adjacent construction. Also, broken water valve at NW corner of 75th and Central Ave.	Contacted BNS (per Rachel Wilson recommendation) to evaluate the possible drainage issue. BNS indicated private issue, but any storm sewer installation would need to be permitted. CEG indicated that water valve is in line to be fixed, but no timeline.	Follow up with resident indicated that situation has improved. Residents to the north have proposed work to help situation. CLOSED.	6-Dec-16
	Dr. John Brown	317-281-1715	North Meridian Hills Blvd.	Drainage issues experienced in ditch during to neighbor's improvements	Contacted resident for follow up.	Follow up with resident indicated that issue has been fixed by neighbor. CLOSED.	6-Dec-16
			7950 Meridian Street	Sinkhole on Williams Creek Boulevard due to failing/failed culvert.	Complaint was submitted to Indy/CEG for evaluation. Assigned to Suez on 9/15/2016, and is scheduled for work in 2017.	2017 Construction. CLOSED per LAS inspection on 4/28	27-Apr-17
9-May-16			7401 Holliday Drive East	The roadside ditch at the service address was re-graded in 2014 but it does not drain properly because it appears the downstream culvert is a higher elevation.	Complaint was submitted to Indy/CEG for evaluation. Assigned to Suez on 9/12/2016, and is scheduled for work in 2017.	Completed. See entry for 7410 HDW below.	1-Aug-17
6-Oct-16	MH Police and Residents		7302 Pennsylvania Street	There is a sink hole in the pavement near a water valve at 7302 N Pennsylvania Street that may indicate a failure in the water line and undermining of the street pavement.	Complaint was submitted to Indy/CEG for evaluation. CEG placed a steel plate and cones for protection. Work to be completed by CEG. No timeline known at this time.	ROE fully executed on April 26th. Construction Complete on 4/28/2017 per CEG. CLOSED.	28-Apr-17
	Scott Lowe	317-997-1589	7530 N. Pennsylvania Street	Front yard drainage issues due to lack roadside drainage.	Contacted Indy DPW to evaluate drainage complaint. They investigated and work is scheduled for 2017 construction. ROE sent to Walter for execution and delivery to Indy.	Per CEG (Jose) all work has been completed. CLOSED.	??
	Devin Anderson	317-681-5069 317-250-7471	7701 N. Pennsylvania Street	Resident previously approved for drive connection to Washington Boulevard and is required to install culvert. Resident is concerned about adjacent project to west discharging additional water to property and if culvert is still needed.	Contacted BNS to discuss the proposed storm pipe project from the west adjacent property (7707 N. Penn St.). Jeff Meid indicated that project should go through Indy permitting for the storm pipe installation. Walter dropped off letter to residents.	Per Meridian Hills resident at March Council Mtg, work has already been completed. Will check in if notified of any other issues. CLOSED.	13-Mar-17
7-Mar-17	Carolyn Kunkler		721 Nottingham Ct.	Resident is property owner of adjacent parcel, concerned that drainage issues will be caused by the new home construction proposed on 721 Nottingham.	Contacted resident to discuss concerns. All issues are either being addressed by the plot plan comments, or are private property grading issues. Resident also contacted BNS. WFH requested contractor to work with Ms. Kunkler to make sure concerns are addressed during construction. Contractor replied in kind.	Contractor to coordinate with resident during construction of 721 Nottingham. CLOSED.	7-Mar-17
	Lance	317.439.5515	CrossRoad Engineers	west side of Pennsylvania crossing Williams Creek Blvd has sunken pavement over culvert crossing likely pipe failure	CRE noticed this during annual pavement evaluation and reported to DPW for evaluation and repair on 3/30	SR 107820407 has been assigned to WWS to inspect and repair/replace as necessary a cross pipe on Williams Creek Blvd. email on file where DPW and CEG assigned to construction. ROE fully executed on 4/26/2017. Construction Complete on 4/28/2017 per CEG. CLOSED.	28-Apr-17

4-May-17	Bart Kister	317-251-1381	7560 Morningside Drive	Left VM concerning ongoing drainage issue due to a drain needing to be replaced. "Not serious".	WFH left VM for resident on 5/5/2017 to discuss.	Letter provided to resident on 5/8/2017. Issue is a private issue, and recommendations were provided in the letter. No action necessary for TOMH or Indianapolis.	8-May-17
	Ted Butz	317.431.7555	tedbutz@talktotucker.com	west side of Central sinkhole over culvert pipes north of 75th Street	CRE noticed this during annual pavement evaluation and reported to DPW for evaluation and repair on 3/29	Per CEG, all work has been completed. CLOSED.	20-Jun-17
14-Jul-17	John Custer	317-340-0134	7410 Holliday Drive West	Pipe culvert on north side of 74th St. and HDW intersection is collapsed, backing water up and pavement failures are forming.	WFH met resident on site and confirmed issue. Complaint has been re-issued with the City on 7/21/2017.	Per resident at 7410, the culvert replacement and pavement patching has been completed. CLOSED.	1-Aug-17
30-Aug-16	Randy Seager	317-686-5203	55 Williams Creek Blvd.	The drainage pipe under Williams Creek Blvd. at the intersection with Penn is collapsing with all the rain and now there is a significant depression in the street that has just appeared and is getting worse.	Complaint was submitted to Indy/CEG for evaluation. Assigned to Suez on 9/13/2016, and is scheduled for work in 2017.	Per Indianapolis, all work has been completed. CLOSED.	1-Aug-17
13-Jul-17	Randy Seager	317-686-5203	55 Williams Creek Blvd.	Complaint forwarded by Sue Beasley concerning condition of culvert replacement at WCB and Penn St., and about standing water downstream of culvert.		Indianapolis has no additional work planned as of now. Per comments from January 2018 Council Meeting, no additional action is necessary.	1-Aug-17
10-Oct-17	Sean Belby	sean@seanbelby.com	170 E. 71st Street	Concerns of standing water / inlet capacity of structure in 71st Street at noted address.	Drainage complaint forwarded to Indy DPW. Rachel Wilson indicated that issue has been assigned to CEG to resolve. Checking in with Dustin Thurston for an update on status.	Indy DPW has assigned work to CEG. Issue is under the jurisdiction of the City of Indianapolis. No action for TOMH at this point. CEG indicated that work done in September 2017, December 2017, and February 2018. Resident continues to follow up. Will close out this complaint.	31-Dec-18
31-Dec-18	Karen Wirts	karen.wirts@yahoo.com	170 E. 71st Street	Concerns of standing water / inlet capacity of structure in 71st Street at noted address.	Walter responded by e-mail to complaint that this issue is the responsibility of the City of Indianapolis, and provided phone contact number for MAC.	No further action required for TOMH. Complaint is closed.	31-Dec-18
19-Feb-19	TOMH		65th and Meridian Street	Bank / Slope Failure	E-mail sent to CEG and DPW on 2/19/2019 to investigate slope failure which appears to be with Meridian ROW, and request to perform fix. Tried to report to RequestIndy, but request already started by Indy/CEG	Issue repaired by CEG. Complaint is closed.	11-Mar-19
13-May-19	TOMH		7151 N. Pennsylvania Street	Bank / Slope Failure	E-mail sent to CEG and DPW on 5/13/2019 to investigate slope failure and to perform fix. Tried to report to CEG, but was directed to DPW.	Issue has been investigated by DPW and sent to CEG for further action. Follow up e-mail sent on 7/8/2019. 9/9/2019 Update - ROE was executed and returned on 8/26/2019. Waiting on DPW/CEG to repair. (Cross-referenced on Infrastructure tab). Culvert replaced by CEG, issue is CLOSED	11-Oct-19
13-May-19	Ted Butz	317-431-7555	7555 N. Central	Concerns with capacity of existing culvert and side yard ditch between properties, and downstream Morningside culvert.	Will be meeting with resident prior to Council meeting on 5/13/2019	Proposal was sent to homeowners in May, but never received a response. Will keep on list for reference if property owners contact the Town again, but no action at this time. Will consider this item closed at this point.	7-Feb-20
9-Nov-16	Tobin Richer	Richer - 317-665-0366	7500-7600 Pennsylvania Street	Drainage ditch improvements were completed on 7605 and 7615 Penn. Street, but no improvements were completed on 7625 Penn Street (Richer parcel).	Contacted Rachel Wilson (DPW) to confirm status of work. She indicated that CEG/Suez was completing field investigation to determine if ditch improvements can be continued on Richer parcel. Contacted again on 1/6/2017 to see if field investigation has been completed.	2017 Construction. Followed up with Jose (CEG) on 5/4/2017 to find out status. As there has been no follow up or additional drainage complaints, we will consider this item closed at this point.	7-Feb-20

4-Jan-19	Callahan		7302 N. Pennsylvania Street	Pavement failure due to water main/valve leak.	E-mail sent to CEG and DPW on 1/14/2019 to investigate pavement failure and request to perform fix.	Issue reported to CEG. It is anticipated that the issue may not be related to the previous leaking water value, but rather, an issue with the existing storm sewer system. CEG is scheduling for storm sewer to be CCTV'd and will respond with findings / next steps. CEG indicated that they have sent to Indy to complete street repair. Followed up on 9/9/2019. (Also listed on Drainage tab) 11/8/2019 Update - Indy DPW patched, but not to the Town's standards. 2/3/2020 Update - WH e-mailed the video from Cole showing water pumping up through the road. 2/4/2020 Update - CEG responded that they will investigate to determine next course of action. WH sent another follow up e-mail on 3/6/2020. CEG installed concrete patch.	13-Aug-20
6-Mar-20	Indy DPW / Keith Trump	317-517-2108	7455 Central Ave	Drainage concerns following installation on Central Ave. curb.	WH called to discuss item with Indy DPW. Item will be discussed at 3/9/2020 council meeting, and will follow up as necessary	Property owner issued complaint with Indy DPW concerning drainage issues due to Central Ave. curb installation. 07/10/2020 UPDATE - Mr. Trump provided photos of the issue at the June council meeting, and follow up e-mails in July. Greg J. has investigated during recent rain events, and W.H. is working on issuing an update with request for direction from the Town. To be discussed at 9/14/2020 Council Meeting. This item was discussed and considered resolved at the October 14th meeting. It is considered CLOSED.	14-Oct-20
	Kahn / John Deignan	954-410-2561 847-975-1006	7525 N. Pennsylvania Street	Front yard drainage issues due to insufficient roadside ditch.	Contacted Indy DPW to evaluate drainage complaint. They investigated and would like additional pictures and flooding information prior to scheduling work.	New property owner has provided camera footage of pipe which indicates blockages, tree roots, and small diameter pipe inside the culvert (6" inside of the 12"). Pipe culvert needs replaced. CRE to provide letter of professional opinion so resident can coordinate with neighbors, as any work is expected to impact existing tree on 7515 Parcel. WFH still has understanding that homeowner is working to complete a fix. 11/9/2020 Update - DPW/CEG will be completing work to re-establish the roadside swale downstream of the 7525 N. Penn parcel, and replace the necessary drive culverts. DPW has issued a ROE entry document to the Town, and TOMH is in process of executing the ROE. Following execution of the ROE, there will be no additional action necessary by the Town. Item is considered 'resolved', and as soon as the ROE is fully executed, the item will be considered CLOSED.	11-Dec-20
13-Sep-21	Lee Tuminello	317-525-8008	73rd and Illinois	Drainage issues in rear yard due to drainage coming from 73rd Street.	WFH has discussed with homeowner and sent an e-mail to DPW to investigate,	WFH met with homeowners on 10/11 to do site visit and discuss options. E-mail was sent to Dustin Thurston on 10/12/2021 detailing the issue and requesting that the City investigate and implement a fix. 11/12/2021 - Indianapolis has added to their IPR list with a low priority rating. Corrective action is not expected to happen in a timely fashion.	12-Nov-21

ARCHIVED INFRASTRUCTURE/MISC COMPLAINTS

DATE REC'D	NAME OF COMPLAINANT	PHONE NUMBER	ADDRESS OF ISSUE	COMPLAINT DETAILS	ACTION TAKEN	NOTES	DATE CLOSED
16-Nov-16	Sandi Hauanio	sandihauanio@yahoo.com	73rd and College Ave.	The street sign at 73RD and College is facing the wrong direction.	Signaram rotated the sign, adjusted the pole, and added concrete.	Work Completed. CLOSED.	18-Nov-16

9-May-19	Richard Ellis	502-262-9696	7425 Spring Mill Road	Damaged irrigation due to utility project on Spring Mill Road	Jim Rush responded that this should be reported to DPW as it is outside of TOMH jurisdiction.	No action necessary for TOMH. Closed.	9-May-19
13-May-19	TOMH		7151 N. Pennsylvania Street	Bank / Slope Failure	E-mail sent to CEG and DPW on 5/13/2019 to investigate slope failure and to perform fix. Follow up e-mail sent on 7/8/2019.	Issue has been investigated by DPW and set to CEG for further action. Follow up e-mail sent on 7/8/2019. 9/9/2019 Update - ROE was executed and returned on 8/26/2019. Waiting on DPW/CEG to repair. (Cross-referenced on Drainage tab) Culvert replaced by CEG, issue is CLOSED	11-Oct-19
23-May-18	TOMH		Holliday Drive West and 64th Street	Sink hole in pavement.	WFH requested DPW/CEG to repair by e-mail on 5/23/2018. SR 107957143	WFH to verify that improvements were completed. CLOSED.	11-Nov-19
24-Oct-18	Randy Seger		WCB and Penn	Speed limit sign down and needs fixed.	Lance directed Morphey to replaced and fix.	CLOSED.	
13-Sep-18	TOMH		7101 N. Penn St.	Sink hole off the pavement	Issue reported to CEG online on 9/13/2018. SR 110521287	WFH to complete site visit today to verify that CEG has repaired. Anticipated that issue was due to utility installation. CLOSED.	11-Nov-19
29-Sep-19	R. Linsmith		65th and Springmill / Wellington and Springmill	Broken Street Lights	Issue reported to IPL as "light is out"	LAS reported both of these Washington style street lights (pole numbers 408-305 A and 409-305 A) to IPL online. Reported as "light is out" for both. 408-305 A is across from 65th Street on east side Spring Mill Road. 409-305 A is on Northeast corner of Wellington Road and Spring Mill Road. 11/8/2019 Update - resident confirmed that IPL has fixed the street lights. CLOSED.	8-Nov-19
7-May-19	Jim Rush		7575 N. Illinois St.	Pothole needs repaired with Illinois Street	Jim Rush issued to Globe to fix.	WFH followed up with Globe to repair on 11/8/2019. CLOSED.	11-Nov-19

26-Dec-19	Jim Rush		64th and Meridian	Street ID Sign and Stop Sign knocked down and damaged.	WH coordinated stop sign work with DPW and Street ID Sign repair with Signarama	DPW replaced stop sign and recovered the Street ID sign. Signaram picking up from DPW to salvage/repair and reinstall. Follow up - Signarama has installed new sign and has invoiced the Town. CLOSED.	5-Mar-20
31-Mar-17	Ted Butz	317.431.7555	On 75th west of Central Ave	Water valve leaking into roadway	Reported to CEG	CEG is aware of issue. Nonresponsive concerning action on the issue. It has not been addressed to our knowledge, but nothing else for the Town to do, so this item is being considered closed at this time.	
18-Apr-17	Jim Rush		appx 182 MHB	curve chevron and speed signs for both directions wiped out by off road vehicle - no police report	reported to Indy MAC on 4/19 and response email on file	WFH informed Town that Indianapolis has identified that there are no improvements warranted at this locations, and they have improvements planned to implement. WFH has advised Town that they should work with City/County Council to appeal the issue to Indy if desired. This item is being considered closed at this time.	
10-Oct-17	Sean Belby	sean@seanbelby.com	170 E. 71st Street	Concerns with traffic light sequence on College Ave. at Park Tudor	Request resubmitted to Indy DPW. WFH checking in with Scott Omlor (DPW) for update on status.	Indy DPW responded that loops are bad and need replaced. Indy DPW to fix with 2018 Capitol Improvements project. Date of work is currently unknown. This item is being consider closed at this time.	
4-Jan-19	Callahan		7302 N. Pennsylvania Street	Pavement failure due to water main/valve leak.	E-mail sent to CEG and DPW on 1/14/2019 to investigate pavement failure and request to perform fix.	Issue reported to CEG. It is anticipated that the issue may not be related to the previous leaking water value, but rather, an issue with the existing storm sewer syste. CEG is scheduling for storm sewer to be CCTV'd and will respond with findings / next steps. CEG indicated that they have sent to Indy to complete street repair. Followed up on 9/9/2019. (Also listed on Drainage tab) 11/8/2019 Update - Indy DPW patched, but not to the Town's standards. WH e-mailed DPW on 11/27/2019 to request DPW for a more appropriate fix. 2/3/2020 Update - WH e-mailed the video from Cole showing water pumping up through the road. 2/4/2020 Update - CEG responded that they will investigate to determine next course of action. CEG installed concrete patch.	13-Aug-20
